380V Cotton Candy Line Extruded Marshmallow Production Line For Confecionery

Specifications :

Payment Terms	L/C T/T Western Union
Keyword	Extruded Marshmallow Production Line, Marshmallow Production Line

Detail Introduction :

Extruded Marshmallow Production Line

Product Description

TMHT Series Full Automatic Extruded Marshmallow Production Line (Cotton Candy Line)

SINOFUDE is proud to develop the model TMHT600/900/1200 Full automatic extruded marshmallow production line that is a complete plant for continuously producing various kinds of cotton candies (marshmallow), which comes in a variety of colors and shapes. Alternative with depositor and extruder, the center filled marshmallow and twist type or carton shape multi color marshmallow can be made in the extruded marshmallow production line.

Full Automatic Extruded Marshmallow Production Line SPECIFICATIONS:

Model	TMHT600	TMHT900	TMHT1200
Capacity (kg/h)	60~100	150~200	300~500
Cutting length (mm)	10~800 (Extrude and Cut Type)		
Steam consumption (kg/h)	250	400	500
Steam pressure (kg/h)	0.2~0.6	0.2~0.6	0.2~0.6
Electric power needed	35kW/380V	45kW/380V	55kW/380V
Compressed air needed.	0.8m3/min	1m3/min	1.5m3/min
Compressed air pressure	0.6-0.8MPa	0.6-0.8MPa	0.6-0.8MPa
Gross weight (kg)	6000	8000	10000
Length of the line(m)	30	35	40
