

Chocolate Pump Stainless Steel Sanitary Food Grade Rotary Lobe Pump With Variator

Specifications :

keyword	Chocolate pump, chocolate transfer pump, chocolate lobe pump, chocolate gear pump, chocolate transporting pump
---------	--

Detail Introduction :

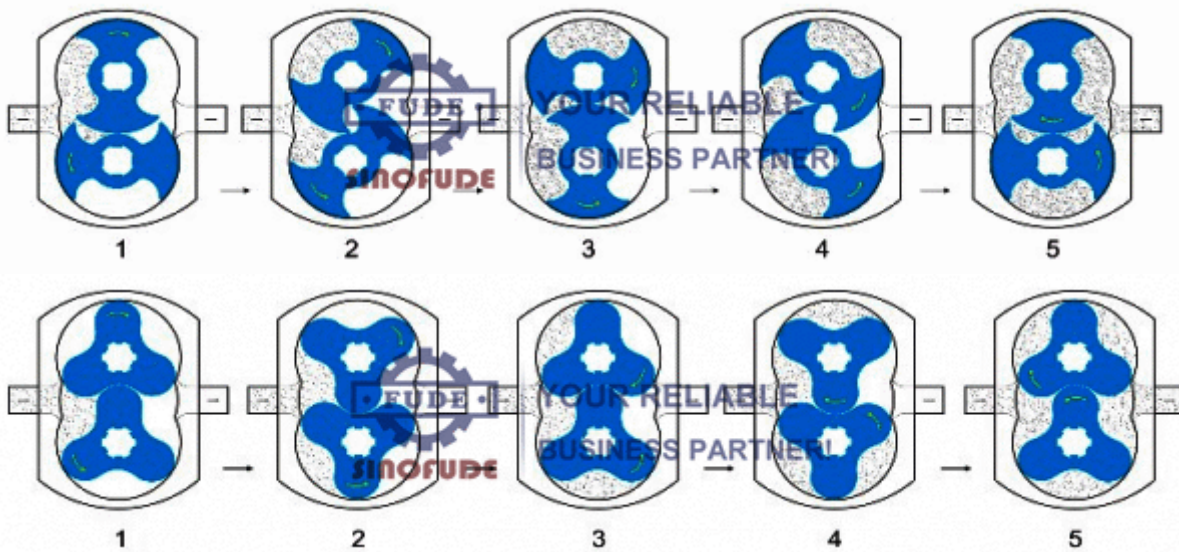

Chocolate Pump

SINOFUDE Provides the CCP series chocolate pump is twin-rotor lobe type pumps which are rotary positive displacement pumps, developed after decades of research and design. The manufacture engineering and accuracy has come up to advanced world level.

The twin-rotor lobe pumps are produced according to the following manufacturer standards: foodstuffs, chemicals, regular, oil-fields and special type. The core parts and sealing device of the products are made of different materials and seal methods according to different properties of materials and technological processes. There are 12 varieties of FUDE rotors, which can be set interchangeably in the same pump.
