

Frequency Converted Plastic Tray Cleaning System 15KW Power 750mm Washing Height

Specifications :

Payment Terms	L/C T/T Western Union
Keyword	Plastic tray cleaning system, gummy machines accessories

Detail Introduction :

Plastic tray cleaning system

Product Description

Plastic tray cleaning systems are a part of the Gummy Machine, Apply to clean and disinfection all kinds of basket, the tray, chopping block, appliance, prevent the pollution of food. Reasonable design of the waterway to save water and efficient, cleaning agents can be automatically add, the transmission device adopts stepless speed manual, in order to meet different conditions of cleaning requirements; The machine USES high pressure pump produce high pressure water to basket body comprehensive cleaning.

Size Information

Model No	??--6000
Running Speed	Frequency Converted
Water Consumption	Circulating Water
Pressure of Water Supply	2-3KG
Steam Consumption	?80KG/H
Total Power	15KW
Machine dimension	6000mm*1700mm*1700mm (Three section) 9000mm*1700mm*1700mm (Five section)
Pump Pressure	0.4MPa
Washing height	750mm
