

Stainless Steel Hard Candy Making Machine For Making Hard Candy

Specifications :

Payment Terms	L/C T/T Western Union
Keyword	hard candy equipment,hard candy maker machine,hard candy making machine

Detail Introduction :

Hard Candy Making Machine

Hard Candy Press Machine can produce many kinds of hard candy, including fruit hard candy, sandwich hard candy, and lollipops. The machine has the features of melting sugar lumps, good heat preservation, easy operation, simple use, easy maintenance, low failure rate, and long service life. The hard candies produced are not only beautiful but also sweet and mellow in taste, which is favored by customers.

Hard Candy Making Equipment Details.

1. Vacuum film sugar boiling machine. Fast alternation of hot and cold, short boiling cycle, and high output.
2. Sugar melting pot. Beautiful appearance and easy operation, quick heating up.
3. Cooler conveying unit. High and stable movement speed, compact structure.
4. Sugar wrapping machine. No dead corner in the barrel, more convenient for hygiene and cleaning.

Hard Candy Equipment specification.

Hard Candy Making Machine Specification.

Applicable industries	Candy making factory, food and beverage factory, home, retail, grocery store, candy store, etc.
Warranty Service	Video technical support, online support, spare parts, on-site maintenance, and repair service.
Video shipping inspection	Provided
Test report	Provided
Core component warranty	1 year
Name	TG machine
Voltage	380V, customizable
Power	3.5KW
Weight	75kg
Dimension	1000*1500*2000
Capacity	50-100kg/hr
Steam requirement	0.2?/min 0.4-0.6Mpa
Molds	We have different shapes of molds in our design, you can produce different shapes of hard candy in the same line, at the same time of the day.
Features	1. We use advanced technology to manufacture, super high temperature and high-pressure production, not easy to stick the sugar. 2. Our servo motor can control the deposit very well.
Small Hard Candy Making Machine Price	320000???
Advantage	Easy to operate

Hard Candy Machine features.

1. Thickened stainless steel material, customer use at ease.
2. **Hard Candy Maker Machine** has low noise and high working efficiency.
3. High output and favorable price.
4. Multifunctional equipment, with continuous working mode.
5. Simple operation, easy to operate at a glance.
6. The parts are made of international brands, with long service life.

7. Extended molding system to protect the mold.
8. Hidden part of the warning signs and the protection of safe use.
9. Cleaning function and drainage pipe, easy to operate.
10. Clean and hygienic, meeting GMP standards.

Hard Candy Making Machine manufacturer has a perfect management system and after-sales service, with the most professional mechanical engineers, skilled recipe engineers, and experienced PLC engineers to help you make the most competitive machine. With our years of technology and experience, we can protect your investment. You can contact us anytime and look forward to cooperating with you!
