

600-800kg/h 304 Stainless Steel Customised Boba Maker Machine For Making Boba

Specifications :

Payment Terms	L/C T/T Western Union
Keyword	boba maker machine,popping boba making machine,,automatic boba making machine

Detail Introduction :

Boba Maker Machine

Popping Boba Machine is developed by **Popping Boba Maker** to make popping beads. The popping beads produced are round, transparent and brilliant, which are suitable for materials, decoration, and matching of various drinks and desserts. It has the characteristics of high speed, high stability, stable molding effect, etc. It meets the national food hygiene standards.

Automatic Boba Making Machine Parameter.

Automatic Boba Making Machine Parameter.				
Model	Output	Number of nozzles	Pouring speed	Price
CBZ-200	200-250kg/h	192	20-30times/min	290000?
CBZ-400	400-450kg/h	384	40-60times/min	370000?

Performance of Popping Boba Making Machine.

1. Patented product, widely used in beverage, ice cream, and dessert industry.
2. Can produce various types, colors, shapes, and flavors of popping beads, customized according to demand.
3. Capacity can be customized according to the needs of each customer.
4. Reliable performance, easy to operate and maintain, easy to get started.

5. Independently adjusted so that all popping beads are the same size.

Popping Boba Machine's core.

1. The filament casting, reduce vibration noise, positioning accuracy of less than 0.1mm, the production of popping beads of high-quality uniformity.
2. The overall use of three sets of servo control systems, with the filament output power, reduce vibration, stable output.
3. The overall use of a control system, brainless operation, early warning, operating restrictions, reduce the failure caused by human factors.
4. Develop the second unified calcification function, reduce the rupture of bursting beads due to short calcification time, reduce the probability of breakage, and adopt the production process of bearing up and down.

Advantages of Boba Maker Machine.

Boba Maker Machine's advantages.	
1	With decades of history.
2	With an experienced team, design team, professional engineers.
3	Advanced professional technology.
4	Experienced engineers on-site after-sales service.
5	Lifetime service with a one-year parts warranty.
6	Variety of product manufacturing options available.
7	Regular follow-up conditions after installation.

Boba Maker Machine's product customization process.

1. Customers provide and note their desired taste, molding method, shape, size, flavor, etc.
2. Confirm the details and performance with the customer after receiving the notes.
3. Customer payment.
4. Produce according to customer's requirements.
5. Contact customers to determine the mode of transport after the completion of production to arrange transportation, real-time tracking of logistics information.
6. Door-to-door installation attentive after-sales service, 24 hours for online guidance.

Boba Maker Machine products are sold in many countries and regions and get their affirmation and support. We take customer satisfaction as our goal, constantly improve our core competitiveness and devote ourselves to the design, development, and promotion of new products. We attach great importance to every customer's opinion and sincerely welcome you to visit us, your suggestions will become our valuable asset!
